## **Visitors**

All visitors, including parents and siblings, are required to enter through the front door of the building and proceed immediately to the main office. Visitors should identify themselves and inform office personnel of their reason for being at school.

Visitors must sign in, identifying their name, the date and time of arrival, and the classroom or location they are visiting. Approved visitors must take a tag identifying themselves as a guest and place the tag onto their outer clothing in a clearly visible location. Visitors are required to proceed immediately to their location in a quiet manner. All visitors must return to the main office and sign out before leaving the school.

Any person wishing to confer with a staff member should contact the staff member to make an appointment. Conferences with teachers are held, to the extent possible, outside school hours or during the teacher's conference/preparation period.

Visitors are expected to abide by all school rules during their time on school property. A visitor who fails to conduct himself or herself in a manner that is appropriate will be asked to leave and may be subject to criminal penalties for trespassing and/or disruptive behavior.

No person on school property or at a school event shall perform any of the following acts:

1. Strike, injure, threaten, harass, or intimidate a staff member, board member, sports official or coach, or any other person.
2. Behave in an unsportsmanlike manner or use vulgar or obscene language.
3. Unless specifically permitted by State law, possess a weapon, any object that reasonably can be considered a weapon or looks like a weapon, or any dangerous device.
4. Damage or threaten to damage another's property.
5. Damage or deface school property.
6. Violate any Illinois law or municipal, local, or county ordinance.
7. Smoke or otherwise use tobacco products.
8. Distribute, consume, use, possess, or be impaired by or under the influence of an alcoholic beverage, cannabis, other lawful product, or illegal drug.
9. Be present when the person's alcoholic beverage, cannabis, or other lawful product, or illegal drug consumption is detectable, regardless of when and/or where the use occurred.
10. Use or possess medical cannabis, unless he or she complied with Illinois

- Compassionate Use of Medical Cannabis Act and district policies.
11. Impede, delay, disrupt, or otherwise interfere with any school activity or function (including using cellular phones in a disruptive manner).
  12. Enter upon any portion of school premises at any time for purposes other than those that are lawful and authorized by the board.
  13. Operate a motor vehicle: a) in a risky manner, (b) in excess of 20 miles per hour, or c) in violation of an authorized district employee's directive.
  14. Engage in any risky behavior, including roller-blading, roller-skating, or skateboarding.
  15. Violate other district policies or regulations, or a directive from an authorized security officer or district employee.
  16. Engage in any conduct that interferes with, disrupts, or adversely affects the district or a school function.

### **School Volunteers**

All school volunteers must complete the "Volunteer Information Form" and be approved by the school principal prior to assisting at the school. Forms are available in the school office. Some teachers utilize parent volunteers in the classroom. The individual teachers make this decision. Teachers who desire parent volunteers will notify parents. For school-wide volunteer opportunities, please contact the building principal.

Volunteers are required to check in and out at the main office and receive a visitor badge before going to their destination.

### **Equal Opportunity and Sex Equity**

Equal educational and extracurricular opportunities are available to all students without regard to race, color, nationality, sex, sexual orientation, gender identity, ancestry, age, religious beliefs, physical or mental disability, status as homeless, or actual or potential marital or parental status, including pregnancy.

No student shall, based on sex or sexual orientation, be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student or parent/guardian with a sex equity or equal opportunity concern should contact their building's principal.

### **Animals on School Property**

In order to assure student health and safety, animals are not allowed on school property, except in the case of a service animal accompanying a student or other individual with a documented disability. This rule may be temporarily waived by the building principals in the case of an educational opportunity for students, provided that (a) the animal is appropriately housed, humanely cared for, and properly handled, and (b) students will not be exposed to a dangerous animal or an unhealthy environment.

### **Invitations & Gifts**

Party invitations or gifts for classmates should not be brought to school to be distributed. Items such as these are of a personal nature and should be mailed home. The office is unable to release addresses and phone numbers of students.

### **Emergency School Closings**

In cases of bad weather and other local emergencies, please listen to any local radio or television station to be advised of school closings or early dismissals. If bad weather or other emergency occurs during the day, please listen to local media stations for possible early dismissal information. All phone numbers listed in your child's emergency contact list will also receive an automated message from the school district notifying parents/guardians of the school closing or early dismissal.

For your child's safety, make certain your child knows ahead of time where to go in case of an early dismissal.

If we dismiss early for an emergency, all after-school functions are automatically canceled.

### **Video & Audio Monitoring Systems**

A video and/or audio monitoring system may be in use on school buses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

### **Accommodating Individuals with Disabilities**

All children with disabilities have the right to a free appropriate public education as provided under Illinois and federal law. It is the obligation of the school district to properly identify, evaluate and place such disabled children. The Americans with Disabilities Act (ADA) and the Federal Rehabilitation Act require the school district to ensure that no individual will be discriminated against based upon a disability. Under

federal law, qualified students with disabilities may be entitled to certain services or accommodations related to their school programming. Parents who believe that their child has a disability that substantially limits their child's ability to function properly in school should contact their school's principal. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

### **Attendance**

Illinois law requires that whoever has custody or control of any child between six (by September 1<sup>st</sup>) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

### **Student Absences**

There are two types of absences: excused and unexcused. Excused absences include: illness (including mental or behavioral health of the student), observance of a religious holiday, death in the immediate family, family emergency, situations beyond the control of the student, circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional, or physical safety, attending a military honors funeral to sound TAPS, attend a civic event, or other reason as approved by the principal.

Additionally, a student will be excused up to 5 days in cases where the student's parent/guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school. Students who are excused from school will be given a reasonable timeframe to make up missed homework and classwork assignments. All other absences are considered unexcused. Pre-arranged absences must be approved by the principal. The school may require documentation explaining the reason for the student's absence. In the event of any absence, the student's parent or guardian is required to call the main school phone number before 8:00 a.m. to explain the reason for the absence. If a call has not been received, and a school official cannot reach a parent/guardian by 10:00 a.m. If the parent/guardian cannot be contacted, the student will be required to submit a signed note from the parent/guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence. Upon request of the parent or guardian, the reason for an absence will be kept confidential. Upon previous request, absent students' homework can be picked up in the school office between 2:00 and 4:00 p.m.

## **Release Time for Religious Instruction/Observance**

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent/guardian must give written notice to the building principal at least 5 calendar days before the student's anticipated absence(s). Students excused for religious reasons will be given an opportunity to make up any examination, study, or work requirement.

## **Make-Up Work**

If a student's absence is excused or if a student is suspended from school, he/she will be permitted to make up any missed work, including homework and tests. The student will be permitted the same number of days as he/she was absent to turn in the make-up work. The student is responsible for obtaining assignments from his/her teachers. Students who are unexcused from school will not be allowed to make up missed work.

## **Truancy**

Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school and district.

Students who miss more than 1% but less than 5% of the prior 180 regular school days without valid cause (a recognized excuse) are truant. Students who miss 5% or more of the prior 180 regular school days without valid cause are considered chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue.

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including:

- Referral to the truancy officer within the Alsip Police Department
- Reporting to officials under the Juvenile Court Act
- Referral to the State's Attorney
- Appropriate school discipline

A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school is subject to expulsion from school. A parent or guardian who knowingly and willfully permits a child to be truant is in violation of State law.

### **Absence from School on Day of Extracurricular or Athletic Activity**

A student who is absent from school after noon is ineligible for any extracurricular or athletic activity on that day unless the absence has been approved in writing by the principal. Exceptions may be made by the designated teacher, sponsor or coach.

### **Grading**

School report cards are issued to students on a trimester basis. For questions regarding grades, please contact the classroom teacher.

### **Loss of 8th Grade Stage Graduation Policy**

The decision to promote a student to the next grade level is based on successful completion of the curriculum, attendance, performance on standardized tests, and other testing. A student will not be promoted based upon age or any other social reason not related to academic performance.

### **Homework**

Homework is used as a way for students to practice what they have learned in the classroom. The time requirements and the frequency of homework will vary depending on a student's teacher, ability and grade level.

Students who are absent from school for a valid cause (an excused absence) may make up missed homework in a reasonable timeframe.

### **Home and Hospital Instruction**

A student who is absent or whose physician, physician assistant, or licensed advanced practice registered nurse anticipates his or her absence from school because of a medical condition may be eligible for instruction in the student's home or hospital. For information on home or hospital instruction, contact your school's principal.

Appropriate educational services from a qualified staff will begin no later than five school days after receiving a written statement from a physician, physician assistant, or licensed advanced practice registered nurse. Instructional or related services for a student receiving special education services will be determined by the student's individualized education program.

## **Bus Transportation**

The district provides bus transportation to and from school for all students living 1.5 miles or more from the school. Parents will be able to access bus information for the upcoming school year on Skyward beginning in early August. Letters WILL NOT be mailed home. Students are not permitted to ride a bus other than the bus to which they are assigned. Parent requests for transportation changes must be made in writing and at least 24 hours in advance. Bus stops are final and new stops will not be added. Routes are generated to ensure each bus runs most efficiently.

While students are on the bus, they are under the supervision of the bus driver. In most cases, bus discipline problems can be handled by the bus driver. In the case of a written disciplinary referral, student bus problems will be investigated and handled by the building principal or assistant principal.

Parents will be informed of inappropriate student behavior on a bus. Parents are encouraged to discuss bus safety and appropriate behavior with their children before the beginning of the school year and regularly during the year.

In the interest of the student's safety and in compliance with State law, students are expected to observe the following rules:

1. Students should be waiting at their assigned bus stop ten minutes prior to the designated arrival time. Students should not wait in their house or garage.
2. Choose a seat and sit in it immediately upon entering the bus. Do not stand in the entrance or in the aisle.
3. Do not move from one seat to another while on the bus.
4. Keep all parts of the body and all objects inside the bus.
5. Loud conversation, singing, boisterous conduct, unnecessary noise or profanity is not allowed.
6. Enter and exit the bus only when the bus is fully stopped.
7. All school rules apply while on the bus, at a bus stop, or waiting for the bus.
8. Use the emergency door only in an emergency.
9. In the event of an emergency, stay on the bus and await instructions from the bus driver.
10. Good behavior and behavior that will not distract the bus driver from operating the bus safely is required. Crowding, pushing, scuffling, and other needless commotion are grounds for disciplinary action.
11. Do not open windows.
12. Keep the bus neat and clean.
13. Athletic footwear equipped with cleats or spikes are not allowed on the bus.
14. Inappropriate behavior will be reported to school authorities and failure to observe safety rules may result in suspension from bus services.
15. Never tamper with, damage, or deface anything in or on the bus, or any of the bus or school equipment.
16. Keep book bags, books, packages, coats, and other objects out of the aisles. Keep all body parts clear of the aisles when seated.

16. Eating is not permitted on the bus.
17. Parents will be liable for any defacing or damage students do to the bus.

Students are expected to follow all school rules when riding the bus. Students may be suspended from riding the school bus for up to 10 consecutive school days for engaging in gross disobedience or misconduct, including but not limited to, the following:

1. Violating any school rule or school district policy.
2. Willful injury or threat of injury to a bus driver or to another rider.
3. Willful and/or repeated defacement of the bus.
4. Repeated use of profanity.
5. Repeated willful disobedience of a directive from a bus driver or other supervisor.
6. Such other behavior as the building principal deems to threaten the safe operation of the bus and/or its occupants.

If a student is suspended from riding the bus for gross disobedience or misconduct on a bus, the school board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The district's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

A student who is suspended from riding the school bus and who does not have alternative transportation to school shall be allowed the opportunity to make up all missed work. It is the responsibility of the student's parent or guardian to notify the school that the student does not have alternative transportation to school.

Video and audio cameras may be active on buses to record student conduct and may be used for the purposes of investigation into misconduct or accidents on the bus.

For questions regarding school transportation issues, contact the District Transportation Coordinator or your school's principal.

## **Immunization, Health, Eye and Dental Examinations**

### **Required Health Examinations and Immunizations**

All students are required to present appropriate proof that the student received a health examination and the immunizations against, and screenings for, preventable communicable diseases within one year prior to:

1. Entering Kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school for the first time, regardless of the student's grade.

Proof of immunization against meningococcal disease is required for students in grades 6 and 12. A diabetes screening must be included as part of the health exam (though diabetes

testing is not required). Students between the age of one and seven must provide a statement from a physician assuring that the student was “risk-assessed” or screened for lead poisoning. An age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination.

Failure to comply with the above requirements by October 15 of the current school year will result in the student’s exclusion from school until the required health forms are presented to the school, subject to certain exceptions. New students who register mid-term shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by an appropriate medical professional.

### Eye Examination

All students entering Kindergarten or the school for the first time must present proof before October 15 of the current school year of an eye examination performed within one year prior to entry of Kindergarten or the school. Failure to present proof by October 15, allows the school to hold the student’s report card until the student presents: (1) a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15.

### Dental Examination

All children entering Kindergarten, second, and sixth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year. Failure to present proof allows the school to hold the child’s report card until the student presents: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15.

### Exemptions

A student will be exempt from the above requirements for:

1. Medical grounds if the student’s parent/guardian presents to the building principal a signed statement explaining the objection;
2. Religious grounds if the student’s parent/guardian presents to the building principal a completed Certificate of Religious Exemption;
3. Health examination or immunization requirements on medical grounds if a physician provides written verification;
4. Eye examination requirement if the student’s parent/guardian shows an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist; or
5. Dental examination requirement if the student’s parent/guardian shows an undue burden or a lack of access to a dentist.

### **Communicable Diseases**

The school will observe recommendations of the Illinois Department of Public Health regarding communicable diseases.

1. Parents are required to notify the school nurse if they suspect their child has a communicable disease.
2. In certain cases, students with a communicable disease may be excluded from school or sent home from school following notification of the parent or guardian.
3. The school will provide written instructions to the parent or guardian regarding appropriate treatment for the communicable disease.
4. A student excluded because of a communicable disease will be permitted to return to school only when the parent or guardian brings to the school a letter from the student's doctor stating that the student is no longer contagious or at risk of spreading the communicable disease.

### **School Operations During a Pandemic or Other Health Emergency**

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.

5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.
8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.
9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.

## **Medication Policy**

### **Student Medication**

Taking medication during school hours or during school-related activities is prohibited unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child by completing a "School Medication Authorization Form."

No school or district employee is allowed to administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student's parent/guardian. No student is allowed to possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this procedure. Medication must be brought to the school office by the parent or guardian, in a pharmaceutical container clearly marked with the child's name, name of medication and pertinent instructions for administration. The school nurse will check the authorization form and the medication before any dose is given to the student. An order from the physician is required if there is a change in the dose of the medication or if the medication is discontinued.

### Self-Administration of Medication

A student may possess and self-administer an epinephrine injector (e.g., EpiPen®) and/or an asthma inhaler or medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

Students who are diabetic may possess and self-administer diabetic testing supplies and insulin if authorized by the student's diabetes care plan, which must be on file with the school.

Students with epilepsy may possess and self-administer supplies, equipment and medication, if authorized by the student's seizure action plan, which must be on file with the school.

Students may self-administer (but not possess on their person) other medications required under a qualified plan, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

The school district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

### Administration of Medical Cannabis

In accordance with the Compassionate Use of Medical Cannabis Program, qualifying students are allowed to utilize medical cannabis infused products while at school and school events. Please contact the building principal for additional information. Discipline of a student for being administered a product by a designated caregiver pursuant to this procedure is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

### Undesignated Medications

The school may maintain the following undesignated prescription medications for emergency use: (1) Asthma medication; (2) Epinephrine injectors; (3) Opioid antagonists; and (4) Glucagon. No one, including without limitation, parents/guardians of students, should rely on the school or district for the availability of undesignated medication. This procedure does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

### Emergency Aid to Students

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

### **Care of Students with Diabetes**

If your child has diabetes and requires assistance with managing this condition while at school and school functions, a Diabetes Care Plan must be submitted to the school principal.

Parents/guardians are responsible for and must:

- a. Inform the school in a timely manner of any change which needs to be made to the Diabetes Care Plan on file with the school for their child.
- b. Inform the school in a timely manner of any changes to their emergency contact numbers or contact numbers of health care providers.
- c. Sign the Diabetes Care Plan.
- d. Grant consent for and authorize designated School District representatives to communicate directly with the health care provider whose instructions are included in the Diabetes Care Plan.

For further information, please contact the Building Principal.

### **Students with Food Allergies**

State law requires our school district to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules.

If your student has a life-threatening allergy or life-threatening chronic illness, please notify the building principal.

Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan may be developed and implemented to provide the needed supports so that your student can access his or her education as effectively as students without disabilities.

Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

## **Social Work**

The school provides a social worker for students. The school's social worker is available to those students who require additional assistance.

## **Safety Drill Procedures and Conduct**

Safety drills will occur at times established by the school board. Students are required to be silent and shall comply with the directives of school officials during emergency drills. There will be a minimum of three (3) evacuation drills, a minimum of one (1) severe weather (shelter-in-place) drill, a minimum of one (1) law enforcement lockdown drill to address a school shooting incident, and a minimum of one (1) bus evacuation drill each school year. There may be other drills at the direction of the administration. The law enforcement lockdown drill will be announced in advance and a student's parent/guardian may elect to exclude their child from participating in this drill. All other drills will not be preceded by a warning to students.

## **Prairie Junior High School Lockers and Locks**

Each student will be assigned both a hallway locker and a gym locker. Each locker must have a Prairie Junior High School combination lock on it at all times. These locks are purchased at registration and additional locks can be purchased for \$5.00 at the main office throughout the year. Students should keep their coat, books and any other personal belongings in their hallway locker and their gym suit and gym shoes in their gym locker. Only one student is permitted to use each locker and students are encouraged not to tell any other student their locker combination. All lockers must be kept neat and clean.

## **Related Service Logs**

For a child with an individualized education program (IEP), the school district must create related service logs that record the type of related services administered under the child's IEP and the minutes of each type of related service that has been administered. The school will provide a child's parent/guardian a copy of the related service log at the annual review of the child's IEP and at any other time upon request.

## **School Dress Code**

Students are expected to wear clothing in a neat, clean, and well fitting manner while on school property and/or in attendance at school sponsored activities. Students are to use discretion in their dress and are not permitted to wear apparel that causes a substantial disruption in the school environment.

- Appropriate footwear must be worn at all times.
- If there is any doubt about dress and appearance, the building principal will make the final decision.
- Students whose dress causes a substantial disruption of the orderly process of school functions or endangers the health or safety of the student, other students, staff or others may be subject to discipline.

### **Student Behavior**

It is the School staff's responsibility to provide a safe and orderly learning environment for all students. In furtherance of that responsibility, the Board of Education has adopted the following Student Discipline Policy and Code. The Code includes the types of misconduct that will subject a student to disciplinary action. Parents and students are expected to review, understand and comply with all provisions of the School District Student Discipline Policy and Code.

Discipline remains within the sound discretion of the district staff and administration, based upon a review of the particular circumstances involved. Individual student discipline will not be discussed with anyone other than the student and their parent/guardian as this is a matter of student confidentiality and is a part of the student's school record.

## Prohibited Student Conduct

Students may be disciplined for gross disobedience or misconduct, including but not limited to the following:

1. Using, possessing, distributing, purchasing, selling or offering for sale tobacco or nicotine materials, including electronic cigarettes, e-cigarettes, vapes, vape pens, or other related vaping products.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.
3. Using, possessing, distributing, purchasing, selling or offering for sale:
  - a. Any illegal drug, controlled substance, or cannabis (including marijuana, hashish, and medical cannabis unless the student is authorized to be administered a medical cannabis infused product under *Ashley's Law* ).
  - b. Any anabolic steroid unless it is being administered in accordance with a physician or licensed practitioner's prescription.

The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed is prohibited unless the student is authorized to be administered a medical cannabis infused product under *Ashley's Law*. The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited.
  - d. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
  - e. "Look-alike" or counterfeit drugs, including a substance that is not prohibited by this policy but one: (a) that a student believes to be, or represents to be, an illegal drug or controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance, or other substance that is prohibited by this policy.
  - f. Drug paraphernalia, including devices that are or can be used to: (a) ingest,

inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.

- g. Any substance inhaled, injected, smoked, consumed or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in a tablet or powdered form.

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they have the prohibited substance, as applicable, in their possession.

4. Using, possessing, controlling or transferring a “weapon” or violating the procedures listed below under the Weapons Prohibition section of this handbook procedure.

5. Running, talking loudly, yelling, pushing, shoving or hitting of any kind including instances where students were “just kidding around” or “just joking,” will not be permitted.

6. Using or possessing an electronic paging device.

7. Using a cellular telephone, smart phone, camera video recording device, personal digital assistant (PDA), smartphone, ipod or similar electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules . Prohibited conduct specifically includes, without limitation, creating and sending, sharing, viewing, receiving or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device or cellphone, commonly known as “sexting.” All cell phones and similar electronic devices must be kept powered-off and in their locker or book bag. If a student violates this procedure, the first time they will be warned. After this, a parent/guardian will be required to pick up the device in the school office.

8. Using or possessing a laser pointer is not permitted.

9. Skateboards are not permitted in school.

10. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a staff member’s request to stop, present school identification or submit to a search.

12. Engaging in bullying, hazing or any kind of aggressive behavior that does physical or psychological harm to a staff person or another student or encouraging other students to engage in such behavior. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other

18. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

19. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning) and sexual assault. 20. Engaging in teen dating violence.

21. In the absence of a reasonable belief that an emergency exists, calling emergency responders (calling 9-1-1); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus, or at any school activity.

22. Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

23. Operating an unarmed aircraft system (AUS) or drone for any purpose on school grounds or at any school event unless granted permission by the building principal.

For purposes of these rules, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; (d) at any location on school property or at a school-sponsored event; or (e) in the case of drugs and alcohol, substances ingested by the person.

Efforts, including the use of positive interventions and supports shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

#### When and Where Conduct Rules Apply

The grounds for disciplinary action also apply whenever the student's conduct is reasonably related to school or school activities, including but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event; or
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.
5. During periods of remote learning.

#### Disciplinary Measures

Disciplinary consequences are given to students based upon the individual circumstances of each disciplinary situation that occurs. The consequences that students receive are at the discretion of the principal or other district administrator. Individual student discipline will not be discussed with anyone other than the student and their parent/guardian as this is a matter of student confidentiality and is a part of the student's school record. School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. Potential disciplinary measures include, without limitation, any of the following measures:

- Notifying parents/guardians.
- Disciplinary conference.
- Withholding of privileges.
- Temporary removal from the classroom.
- In-school suspension.
- Return of property or restitution for lost, stolen or damaged property.
- After school study provided that the student's parent/guardian has been notified.  
(If transportation arrangements cannot be made in advance, an alternative

- disciplinary measure will be assigned to the student.
- Community Service
  - Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
  - Suspension of bus riding privileges.
  - Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
  - Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
  - Transfer to an alternative program if the student is expelled or otherwise qualifies for transfer under State law.
  - Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), “look-alikes,” alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavior interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

#### Isolated Time Out, Time Out and Physical Restraint

Isolated time out, time out, and physical restraint shall only be used if the student’s behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others. The use of prone restraint is prohibited.

#### Corporal Punishment

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

### Weapons Prohibition

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a relationship to school shall be expelled for a period of not less than one year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm, as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 1961. The expulsion period may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.
2. A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alike" of any firearm as defined above.

### Gang & Gang Activity Prohibited

"Gang" is defined as any group, club or organization of two or more persons whose purposes include the commission of illegal acts. No student on or about school property or at any school activity or whenever the student's conduct is reasonably related to a school activity, shall: (1) wear, possess, use, distribute, display, or sell any clothing, jewelry, paraphernalia or other items which reasonably could be regarded as gang symbols; commit any act or omission, or use either verbal or non-verbal gestures, or handshakes showing membership or affiliation in a gang; or (2) use any speech or commit any act or omission in furtherance of the interest of any gang or gang activity, including, but not limited to, soliciting others for membership in any gangs; (3) request any person to pay protection or otherwise intimidate, harass or threaten any person; (4) commit any other illegal act or other violation of district policies, (5) or incite other students to act with physical violence upon any other person.

### Re-Engagement of Returning Students

The building principal or designee shall meet with a student returning to school from an out-of-school suspension, expulsion, or alternative school setting. The goal of this meeting shall be to support the student's ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work.

### Fees, Fines, and Charges; Waiver of Student Fees

The school establishes fees and charges to fund certain school activities. Students will not be denied the opportunity to participate in curricular and extracurricular programs of the school district due to the inability of their parent or guardian to pay fees or certain charges. Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver applies to all fees related to school, instruction, and

extracurricular activities. A fee waiver does not exempt a student from charges for lost and damaged books, locks, materials, supplies, and/or equipment.

Applications for fee waivers may be submitted by a parent or guardian of a student who has been assessed a fee. A student is eligible for a fee waiver if at least one of the following prerequisites is met:

1. The student currently lives in a household that meets the same income guidelines, with the same limits based on household size, that are used for the federal free meals programs.
2. The student's parent is a veteran or active-duty military personnel with income at or below 200% of the federal poverty line.
3. The student is homeless, as defined by the Mc-Kinney-Vento Homeless Assistance Act.

The building principal will give additional consideration where one or more of the following factors are present:

1. An illness in the family
2. Unusual expenses such as fire, flood, storm damage, etc...
3. Unemployment
4. Emergency situations
5. When one or more of the parents/guardians are involved in a work stoppage

The building principal will notify the parent/guardian promptly as to whether the fee waiver request has been granted or denied. Questions regarding the fee waiver application process should be addressed to the building principal. Pursuant to the Hunger-Free Student's Bill of Rights Act, the school is required to provide a federally reimbursable meal or snack to a student who requests one, regardless of whether the student has the ability to pay for the meal or snack or owes money for earlier meals or snacks. Students may not be provided with an alternative meal or snack and the school is prohibited from publicly identifying or stigmatizing a student who cannot pay for or owes money for a meal or snack.

### **Prevention of and Response to Bullying, Intimidation, and Harassment**

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important district and school goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the

aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

*Bullying* includes cyber-bullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Bullying may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or

alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the building principal, nondiscrimination coordinator, district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the district complaint manager or any staff member. Anonymous reports are also accepted by phone call or in writing.

A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

A student will not be punished for reporting bullying or supplying information, even if the school's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

### **Sexual Harassment & Teen Dating Violence**

Sexual harassment of students is prohibited. A person engages in sexual harassment whenever he or she makes sexual advances, and/or engages in other verbal or physical conduct, including sexual violence, of a sexual or sex-based nature, imposed on the basis of sex, that:

- 1) Denies or limits the provision of educational aid, benefits, services, or treatment; or that makes such conduct a condition of a student's academic status.
  
- 2) Has the purpose or effect of substantially interfering with a student's educational environment, creating an intimidating, hostile, or offensive educational environment, depriving a student of educational aid, benefits, services, or treatment, or making submission to or rejection of such conduct the basis for academic decisions affecting a student.

The terms intimidating, hostile, and offensive include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, and spreading rumors related to a person's alleged activity.

Engaging in teen dating violence that takes place at school, on school property, at school-sponsored activities, or in vehicles used for school-provided transportation is prohibited. The term teen dating violence refers to a student who is 13 to 19 years of age that uses or threatens to use physical, mental, or emotional abuse to control and individual in the dating relationship; or uses or threatens to use sexual violence in the dating relationship.

Students are encouraged to report claims or incidents of sexual harassment, teen dating

violence, or any other prohibited conduct to the building administration. Complaints will be kept confidential to the extent possible given the need to investigate. Students who make good faith complaints will not be disciplined.

### **Search and Seizure**

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects.

### **School Property and Equipment as well as Personal Effects Left There by Students**

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

### **Student Searches**

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for the school to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

### **Seizure of Property**

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

### **Questioning of Students Suspected of Committing Criminal Activity**

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

### **Field Trips**

Field trips are a privilege for students. Students must abide by all school policies during transportation and during field-trip activities, and shall treat all field trip locations as though they are on school grounds. Failure to abide by school rules and/or location rules during a field trip may be subject to disciplinary consequences. All students who wish to attend a field trip must receive written permission from a parent or guardian with authority to give permission. Students may be prohibited from attending field trips for any of the following reasons:

1. Failure to receive appropriate permission from parent/guardian
2. Failure to complete appropriate coursework
3. Behavioral or safety concerns
4. Denial of permission from administration
5. Other reasons as determined by the school

### **Suicide and Depression Awareness and Prevention**

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important goals of the school district.

The school district maintains student and parent resources on suicide and depression awareness and prevention. Much of this information, including a copy of the school district's policy, is posted on the school district website. Information can also be obtained from the school office.

## **Access to Student Social Networking Passwords & Websites**

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination. The district may not request or require a student to provide a password or other related account information in order to gain access to the student's account or profile on a social networking website if the district has reasonable cause to believe the student's account on a social networking website contains evidence that the student has violated a disciplinary rule or policy.

## **Exemption from PE Requirement**

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request. Upon written notice from a student's parent/guardian, a student will be excused from engaging in the physical activity components of physical education during a period of religious fasting.

A student in 7th or 8th grade may submit a written request to the building principal requesting to be excused from physical education courses because of the student's ongoing participation in an interscholastic or extracurricular athletic program. The building principal will evaluate requests on a case-by-case basis. Students with an Individualized Education Program may also be excused from physical education. Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practices Act, prevents his or her participation in the physical education course. State law prohibits the School District from honoring parental excuses based upon a student's participation in athletic training, activities, or competitions conducted outside the auspices of the School District. Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to a physical education course.

1. The time of year when the student's participation ceases; and
2. The student's class schedule.

## **Athletic Rules & Code of Conduct**

The Athletic Code applies to all students who want to participate in athletics. Athletics include competitive sports, extracurricular activities, cheerleading and pom-poms. This code applies in addition to other rules and regulations concerning student conduct and imposes additional requirements on student athletes and cheerleaders.

Participation in athletics is a privilege. Those who participate in athletics have a responsibility to favorably represent the school and community. Student athletes are expected to conduct themselves both in and out of school in a manner appropriate to their responsibilities as representatives of the school and district. If a student fails to comply with the terms of this code, the privilege to participate in athletics may be lost in accordance with the terms of this Athletic Code.

### **Requirements for Participation**

An athlete must have the following fully executed documents on file at the school office before the athlete's first participation in any activity:

1. A current physical examination report completed by a physician licensed in Illinois to practice medicine in all its branches which finds the athlete is physically able to participate; and
2. A permission slip to participate in the specific sport in which the athlete intends to participate signed by the athlete's parent or guardian
3. Signed documentation agreeing to comply with the School District's policies and procedures on student athletic concussions and head injuries.

### **Modification of Athletic or Team Uniform**

Students may modify their athletic or team uniform for the purpose of modesty in clothing or attire that is in accordance with the requirements of the student's religion or the student's cultural values or modesty preferences.

### **Student Athlete Concussions and Head Injuries**

A student athlete who exhibits signs, symptoms, or behaviors consistent with a concussion in a practice or game will be removed from participation or competition at that time. A student athlete who has been removed from an interscholastic contest for a possible concussion or head injury may not return to that contest unless cleared to do so by a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer. If not cleared to return to that contest, a student athlete may not return to play or practice until the student athlete has provided his or her school with written clearance from a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches in Illinois.

## **Student Records**

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings (including electronic recordings made on school busses) that are created in part for law enforcement, security, or safety reasons or purposes, though such electronic recordings may become a student record if the content is used for disciplinary or special education purposes regarding a particular student.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

### **1. The right to inspect and copy the student's education records within 10 school days of the day the District receives a request for access.**

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost. These rights are denied to any person against whom an order of protection has been entered concerning the student.

### **2. The right to request the amendment of the student's education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper.**

A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought.

If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

### **3. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois**

### **School Student Records Act authorizes disclosure without consent.**

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a school official may also include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records (such as an attorney, auditor, medical consultant, or therapist); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; to another school district that overlaps attendance boundaries with the District, if the District has entered into an intergovernmental agreement that allows for sharing of student records and information with the other district, any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

#### **4. The right to a copy of any school student record proposed to be destroyed or deleted.**

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

lunch aside from the hot lunch program and that there will be no outside food items for birthdays or celebrations within the school day with the exception of teacher led celebrations, which must comply with the suggested lists of healthy foods supplied in our Wellness Policy.
